Guidelines for ePoster Presentations

A: Presenter's preparation tips

1. Only eposters will be accepted so you need to develop your poster as a PowerPoint slide. We have included a PowerPoint template for you to use.
2. Include the title of your study or project, author names, and the institution where the work was completed, in large letters centered at the top of the poster. Include the contact email of the lead author.
3. Use the headings to organize your poster for example:
    a. Aim
    b. Problem statement/gap
    c. Methodology
    d. Results
    e. Conclusions
    f. Lessons learned
    g. Recommendations

4. Lay your poster sections in a logical order for others to follow your presentation. A good method is setting up your poster in a column format so that individuals interested can read your poster, first vertically (top to bottom), and then left to right.
5. When using the template please replace our sample content with your own. If you need more placeholders for titles, subtitles, or body text, copy any of the existing placeholders, then drag the new one into place. Please do not edit or remove the footer.
6. Use a font size that can be read easily, and the title should be larger than the rest of the text.
7. Posters should stimulate discussion, not give a long presentation. Therefore, keep text to a minimum, and write clearly and concisely. Do not try to include all the text of your study in the poster sections. Include pictures and graphs and make sure every item in your poster is necessary. Remember to obtain permission from any people who are recognizable in your photographs.

8. Please submit your eposter to conference@pcau.org.ug and copy in conference@uci.or.ug by **15th August 2025** as a PowerPoint or in pdf format. You can also use the same contact if you have any inquiries or questions about poster presentations.

B: At the Conference

- You will be told on which screen your poster up will be displayed.
- Please stand at your poster during the Happy Poster Viewing and during breaks so that you can answer any questions people may have.
